

Celebrating One of America's Greatest Roads....

This spectacular road, built in 1933, was designed to showcase the beauty

of the Black Hills and Mt. Rushmore. Some of its unique features, including one lane tunnels that frame Mt. Rushmore and wooden structures connecting the tunnels that we call pigtails, slow the

traveler down so they have the opportunity to appreciate the wonders found along this 17-mile journey. Be sure to take your time and enjoy the majesty that surrounds you on this must do experience. Be sure to stop at the Visitor Center approximately half way down the road for additional information, snacks, restroom, shopping and more.
